

# CALL ME

*Words and Music by Fabian Scheibe, Patrick Scheibe and Lars Nolte*

Do you want my love  
you want to waste your time  
Do you want to talk  
How can I help you that you feel fine  
You want to feel my body  
do you wanna laugh bout me  
I'm waiting for a message  
that you show what I can't see  
This riddle is like a hit in my face  
why don't you know what you still know  
There will be some sunny days  
If you stop this senseless show

You don't find the way to your phone  
you let me alone  
How can you live with this lie  
you don't know why

Call me or die

I know you want my money  
You really talk with me  
You count and count the minutes  
not a second is just for free  
You wisper hold the line  
scream baby oh baby stay  
you aren't interested in my love  
but at this night you will pay  
I call 0123 666  
I call it every night  
and this night you will suck my dick  
When the moon is shining bright

You don't find the way to your phone  
you let me alone  
How can you live with this lie  
you don't know why

Call me or die
