

# FEAR ME

*Words and Music by Lars Nolte and Patrick Scheibe*

Every day starts with a morning  
In my head is darkest night  
Blow away these feelings  
Look on the eyes of the dice  
Want to break out to stay alive  
I'm your slave  
I hate it  
You laught about me  
You know I can't go  
Then you have to fear the fall  
You have to fear the fall tonight  
You have to fear to die, die, die

You know my name  
See the hate in my face  
Fear me this day

The dark lord leads my hand  
In a war that'll never end.  
You can judge my life, my soul  
I'm away to dig this hole.  
Never see, never see, can't see the sky  
You have to fear to die tonight  
You have to fear to die, die, die

Want my scream  
I kill you again  
I hate to see you  
I pray, pray for me in those days  
Fear me this day

Want to scream in my head  
Drop your body into death  
drop your body  
Smash your face  
Kind of the human race..
