

MIA'S LAST DISCOVERY

Words and Music by Patrick and Fabian Scheibe

Fly by, my my, fly by my little star
Tonight I try, I try to be so far
away from home
It try to come so close to you
close to you..

Flying like an aeroplane
and all the stars won't be the same
In my dreams I saw your face
I saw you shining bright so
bright

Hey you, that's crap, there must be something wrong
this heat, this pain, becomes so unpredictable
to me
It seems that I'm dying here tonight
here tonight

Flying like an aeroplane
and all the stars won't be the same
In my dreams I saw your face
I saw you shining bright so
bright tonight
bright tonight

[I should regret]
[I must be dead]
