

MY GIRL

Words and Music by Patrick Scheibe

Please put your hands away
and stop to speak
Don't want to hear your shit
and all these lies
Just stop to crying now
and fuck yourself
and when you've finished
then go to hell...
Fuck me fuck you and all the others too
do what you want, but babe not with me
if you wanna go to mc or just take some crack
noone will stop you, but babe not with me

Everybody is seeing
you have no brain
you twaddle bullshit
everyday again
and noone loves you
and I know why
because you're stupid
and not too shy

Fuck me fuck you and all the others too
do what you want, but babe not with me
if you wanna go to mc or just take some crack
noone will stop you, but babe not with me
I see you lie in my bed
much too weighty with a cigarette
since the day I saw you I feel sick
but now its over, .. RIP with a...
...kick
